

Turning Point USA SURGES to Over 450 Full and Part Time Staff

"I'm immensely proud of the fact that at a time when America is at a standstill and stagnant growth has become the norm, Turning Point USA is powering full steam ahead in our fight to save this country" - Charlie Kirk

PHOENIX, Aug. 14, 2020—Turning Point USA has assembled the largest team in its organization's eight year history, adding 56 new employees to both its Phoenix, Ariz. headquarters and to its National Field Program across the country. The new hires bring Turning Point USA full-time and part-time staff to 465 nationwide.

All new staff were brought to Phoenix for a week of training and mentorship from senior team members. Time was spent educating new and returning representatives in the National Field Program as many campuses plan phased reopenings heading into the fall semester. Field representatives work exclusively with college students everyday, tabling on campus to engage in conversation, distributing educational literature, registering new student activists, and working with student leaders to host events and welcome guest speakers to their schools. These staffers play a vital role in the organization by staying directly engaged with any cultural and political issues emerging on campus.

Founder and President Charlie Kirk addressed the staff during their training on Friday, highlighting how most cultural issues the country now faces have been birthed on college campuses years before they gained mass popularity. He pushed the importance of listening and paying attention to what cultural touchpoints college students are discussing on campus.

Kirk ended his address by conveying his hope for the future of America and the important role Turning Point USA is playing in the battle for the future of the country:

"This class of new hires is the largest in TPUSA history and I'm immensely proud of the fact that, at a time when America is at a standstill and stagnant growth has become the norm, Turning Point USA is powering full steam ahead in our fight to save this country."

About Turning Point USA

Turning Point USA is a 501(c)3 non-profit organization founded in 2012 by Charlie Kirk who was only 19 at the time. The organization's mission is to identify, educate, train, and organize students to promote the principles of freedom, free markets, and limited government. Since its founding, Turning Point USA has embarked on a mission to build the most organized, active, and powerful conservative grassroots activist network on college campuses across the country. With a presence on over 2,000 college and high school campuses across the country, Turning Point USA is the largest and fastest-growing youth organization in America.
