Turning Point USA's Professor Watchlist Add's BLM Founder to its Site

A fight against leftist propaganda and professors who push a radical agenda in the classroom

PHOENIX, Oct. 10, 2020 — With the rising threat of college indoctrination, Turning Point USA Founder and President Charlie Kirk created a way to take power away from the leftist professors that were taking control of colleges across the country and teaching false narratives to its children. The counter Charlie Kirk created was called the Professor Watchlist, a site that would unmask the radical professors. The site grew quickly, filling with names of educators who actively discriminated against conservative students and advanced leftist propaganda in the classroom.

One of the newest editions to the Professor Watchlist is Patrisse Cullors, a faculty director for Prescott College's MFA degree of Social and Environmental Arts Practice. Patrisse is no stranger to pushing radical agendas as the co-founder of Black Lives Matter (BLM) and its parent organization Movement For Black Lives. Once Cullors was reported to the Watchlist, a summary of her views and current teaching were written up for the site alongside a brief history of her involvement with radical organizations.

The Professor Watchlist has currently 290 professors and teachers recorded on the site, and over 851 reported professors are in the database currently being researched by the Professor Watchlist team. Students can search for their university or a specific professor on <https://www.professorwatchlist.org/> to prepare themselves for any hostile classrooms they will be walking into.
