Turning Point USA Will Host the 2022 Western Regional Conference and Young Latino Leadership Summit in Newport Beach, CA

Join thousands of TPUSA student activists who are planning to attend both events back-to-back, held during the same weekend, October 14-16

PHOENIX, Aug. 24, 2022—Turning Point USA is creating one action-packed weekend by gathering the biggest network of conservative student activists for two major events — the 2022 Western Regional Conference (WRC) and the Young Latino Leadership Summit (YLLS).

The WRC and YLLS events will take place this year in Newport Beach, CA, October 14-16 —while separate events—students are encouraged to take full advantage of the

education and activism training received from America's top conservative leaders and cultural influencers by registering for both as soon as possible.

The WRC, held October 14-15, is a fully immersive two-day experience where students will hear from motivational conservative speakers, culture stars, student activists, and political leaders — all empowering and motivating attendees to stand strong in the fight to win the American Culture War on campus and online.

The YLLS, held October 16, is a one-day rally celebrating the traditional conservative values found in the Latino community, open to everyone who loves the American conservative way of life. This event is the clearest sign that conservative values are celebrated by Americans from every background, regardless of race or nationality.

"We are witnessing a true Turning Point, a tectonic shift in the values expressed by both young people more broadly, and within the Hispanic community more specifically. Polling shows that both of these groups are turning to conservative principles and values in large, unprecedented numbers. Many people have told me over the years that the conservative message simply couldn't win with these groups — and then Turning Point USA proves everyone wrong with massive success," says Charlie Kirk, Turning Point USA founder and CEO. *"We will celebrate our successes, but there is still more work to be done and these students are the frontlines of what will be achieved next."*
